My Mission

I am experienced in full stack web development with over 1 year of software development looking to advance my knowledge and experience with a great company. I have a background in hospitality as a lead server so I have great people skills that makes me malleable with all types of personalities. I have a passion for lifelong learning and currently studying MySQL and SalesForce. With a thirst for knowledge, collaboration in a team environment and a great dedication to the art of development, I look forward to producing for you and learning from your company's future endeavors.

Skills/Languages/Tools

ASP.NET MVC	LINQ
HTML5	mySQL
CSS3	SQL Server Management Studio
JavaScript	SQL Server Reporting Services
WebForms	GitHub
Entity Framework	Support System Ticketing System
	Jira Atlassian Ticketing System

Professional Experience

Junior Software Engineer   **SPI Software Solutions**
February 2018 – May 2018
